

Mi Tierra-Mi Mundo

Immersive Real/Virtual Watershed Experiences

Bring Smithsonian into your Classroom:

Check out *Mi Tierra, Mi Mundo/My Land-My World!*

The LVM is highlighting *Mi Tierra, Mi Mundo/My Land, My World*, a series of immersive real-virtual watershed experiences and resources. These experiences:

- Use the latest in 3D virtual reality technologies in gaming, simulations, and virtual worlds
- Engage Latino youth (grades 5-12)
- Spark early career interest in Science, Technology, Engineering, Mathematics (STEM)

What is the Smithsonian Latino Virtual Museum (LVM)?

LVM is an offering of bilingual, mixed-media experiences and educational resources accessible through various online and real-world program outreach opportunities. You can access LVM by visiting http://latino.si.edu/education/LVM_Main.htm

Mi Tierra-Mi Mundo products and services

illustrate an outreach model that:

- Inspire and Motivate
- Show career and life opportunities
- Develop 21st Century skills
- Create new ways to explore Latino cultural identity

Smithsonian Latino Center

A watershed is an area of land draining off into a river, river system, or other body of water.
